

# Employee Attrition Analysis

*-By Soumya Sahni*

# Problem Statement

***XYZ company which was established a few years back is facing around a 15% attrition rate for a couple of years. And it's majorly affecting the company in many aspects. In order to understand why employees are leaving the company and reduce the attrition rate XYZ company has approached an HR analytics consultancy for analyzing the data they have. You are playing the HR analyst role in this project and building a dashboard which can help the organization in making data-driven decisions.***

# Objective

***Find key metrics and factors  
and show the meaningful  
relationships between attributes***

# Tools Used

***Power BI***

# Key Points

- ***How many employees have turnover(attrition)?***
- ***How many employees have turnover according to their salary?***
- ***Which field has the highest attrition?***
